SKILLS

TECHNICAL SKILLS

- JAVA / JEE
- Spring boot
- API REST
- WebServices
- Swagger / Json
- Postman API
- PostgreSQL
- SQL / MySQL
- Wiremock
- Junit / Mockito

PRINCIPLES & TOOLS

- Squash TM
- Jira / Xray
- RabbitMQ
- Jenkins
- Maven
- Git / Gitlab CI
- SonarQube
- SonarLint
- Script Test
- Test Automation
- UiPath
- Agile / Scrum

LANGUAGES

- English ——— Fluent
- French ——— Fluent
- Arabic ——— Native speaker

EDUCATION

Rabat, Morocco **Computer Software Engineering**
2019 - 2021 Master's degree, UM5

Rabat, Morocco **Mathematics and IT**
2015 - 2019 Licentiate degree, UM5

Rabat, Morocco **Sciences Mathematics**
2014 - 2015 Baccalaureate, Ibn El Khatib

CERTIFICATES

Udemy Dec - 2022 ISTQB Tester Fondation

Udemy Mars - 2021 ISTQB Test Automation

Udemy Nov - 2020 Spring Frame Work

Udemy Sep - 2020 Agile Scrum Training

PROFESSIONAL EXPERIENCE

Feb 2023 - Present **QA Automation Engineer** [Capgemini Technology Services Morocco]

Mission: Setting up functional and automated tests for a FullStack application.

- Read and analyze specifications.
- Prepare test plans.
- Designing functional test requirements and scenarios.
- Create test cases in Squash TM.
- Execute test cases and prepare test reports.
- Report and follow up on anomalies.
- Identify non-regression test cases.
